❖ *The details of the software are attached below.*

Overview

Room sharing is where two or more people occupy a **room**, typically a **bedroom**. Both a **shared** and private **room means** that the host **will** also be at the location while **you're** there. A **shared room** is a common space, like a living **room** or **you will** be **sharing** the **room** with other guests while a private **room** is a **room** of your own. **You can** also book the entire place, ideal for families and big groups.
